

TECHNOLOGY HEALTH & RISK REVIEW

Turn technology concerns into a prioritized action plan.

A focused \$795 review for organizations that need clarity across IT, security, backups, cloud, websites, and AI readiness before committing to larger work.

WHAT IS INCLUDED	BEST INITIAL FIT
- 60-90 minute discovery meeting - High-level review of agreed technology areas - Immediate risks and recurring problems identified - Prioritized recommendations and budget guidance - Written executive summary - 45-minute findings presentation	- Usually 10-200 employees or comparable complexity - No full internal IT team, or an overloaded team - Recurring downtime, security, backup, cloud, website, AI, or planning concerns - Remote support is workable for the requested scope

CLEAR BOUNDARIES

The review does not include penetration testing, guaranteed compliance certification, remediation, implementation, emergency support, or system access without written authorization. Products, licenses, vendor fees, and implementation work are quoted separately.

INTRODUCTORY PRICE	IMPLEMENTATION CREDIT	TYPICAL TIMELINE
\$795	\$500 toward an approved \$5,000+ project started within 30 days	Normally within 10 business days after discovery and receipt of agreed information
